

"Recruitment, Retention & Development Tools"

Competency Management Program:

Achieving your organizational visions require specific objectives, determination and a team. Meet your organizational goals and objectives through BridgeFront's Competency Management program. Our program is your resource for:

- ◆ **New hire development** and initial staff training
- ◆ **Refreshing staff skills** and career advancement
- ◆ **Certification preparation** & continuing education
- ◆ **Quick online assessment tests**, available 24/7
- ◆ **Custom assessments & learning plans** for each team member

BridgeFront helps you build team members with the right knowledge, skills, abilities and behaviors necessary for your organization's day to day processes and goals.

Our Competency Management Program will start you down a path where your employees understand their role and how important they are to the success of your organization.

About Us:

BridgeFront is a leader in providing comprehensive, yet affordable healthcare education services. Our extensive, online course library consists of titles on OSHA, HIPAA, Revenue Cycle and much more. Over 10,000 clients nationwide have partnered with BridgeFront to simplify and augment their staff training.

Features & Benefits:

Online Assessments—The online assessment tests are made up of 10 to 15 questions that validate skills and education, and available 24/7.

Define Specific Employee Roles—Defines the specific role that each employee plays in the success of your organization.

Identify Skill Gaps—Identifies individual and department-wide skill gaps and provides you with a road map for your new hire and continuing education program.

Customizable Assessments—Create your own competencies and assessment tests, and assign to as many students as needed in minutes.

Custom Learning Plan—Once the assessments are complete, we can provide you with a specific learning road map for each team member.

Additional Learning Services—Explore BridgeFront's other learning services such as on-site training, custom course and test development.

"We recently started using BridgeFront's entire revenue cycle online training program. Really great for those with limited knowledge in the field, and can test their understanding of the basics, plus you can edit to include your own internal policies."

- Christine Fontaine, Shore Health System
